ABOUT THE MATHEMATICS OLYMPIAD

The **Mathematics Olympiad** is one of **India's oldest and most** respected mathematics competitions, with participation from schools across the country.

The **first Mathematics Olympiad** was held in 1979, and since then it has consistently aimed to nurture mathematical thinking, creativity, and problem-solving skills.

Organized annually by the **Mathematics Association, IIT Bombay,** the Olympiad is designed and conducted entirely by students of the Mathematics Department, under the the guidance of experienced faculty members. The problems are **original, concept-driven,** and emphasize **clarity of thought** over rote learning.

Now celebrating its **41st edition,** the Mathematics Olympiad continues to challenge young minds and inspire a deeper appreciation for mathematics.

WHAT MAKES THIS OLYMPIAD UNIQUE?

- ✓ Orignal problems designed by **IIT Bombay**
- ✓ Exposure to IIT Bombay's academic environment
- ✓ Focus on logical reasoning and conceptual depth

WHY PARTICIPATE ?

- ✓ Develop strong problem-solving skills
- ✓ Gain certificates and academic recognition
- ✓ Expirience Mathematics beyond classrooms

Some moments from last year...
