Indian Institute of Technology Bombay

GROTHENDIECK: HIS LIFE, HIS MATHEMATICS AND HIS WRITINGS

ABSTRACT: Alexander Grothendieck was arguably the most original, most influential, and the most prolific mathematician of the 20th century. After retiring from active mathematics in his early 40's, he contributed to several newer fundamental insights. This lecture will reflect on some of the enigma around him, before and after "retirement".

Speakers

Leila Schneps and Pierre Lochak

Institut de Mathématiques de Jussieu Paris

Venue: Room number 23, VMCC
IIT Bombay

Part One

6TH MARCH, 2024 | 4 PM TO 5 PM IST

Part Two With Some Mathematics

6TH MARCH, 2024 | 5:15 PM TO 6 PM IST
